Brand Marketing Collaboration: Campaign brainstorming, cross-functional alignment with regional marketing/communications, asset routing & approvals, event coordination

Creative Operations: Copy/design/production coordination; video project coordination; DAM administration; content governance; accessibility (ADA/WCAG) awareness

EXPERIENCE

2015 - Present

Web Applications Lead | Children's of Alabama | Birmingham, AL

- Manage the visual design and content of 80-plus websites within 150 departments and 13 off-site practice locations for one of the largest pediatric medical centers in the U.S. Serve as the lead for both internal and external customer project needs
- Project manager of various organizational development initiatives, including the development of new external and internal intranet websites, department-specific mobile apps (Alabama Poison Information Center-Poison Perils app and statewide educational upgrade)
- Identify, negotiate, acquire, facilitate and manage all vendor partnerships related to online directory management, SEM/SEO and content management systems
- Leverage long-term web strategies to meet the ongoing needs of the 846K online visitor population, both elevating and ensuring impairment and ADA compliance, CMS software usage and platform upgrades
- Conduct multiple platform migrations and redesigns, coordinate cross-departmental resources, facilitate meetings and set timelines, migrate content for implementations, supervise testing and engage in direct support following go-lives
- Manage metrics and reporting for leading performance analysis used in developing optimizations for future strategies
- Organizational-wide participating member of organizational governance committees including ACE Continuing Education, Hospital's Firearm Safety Committee and Patient Experience IT Advisory Council

2008 - 2015

Web Content/Developer | Children's of Alabama | Birmingham, AL

- Developed and coordinated the creative direction and designed graphic user interfaces for 80-plus websites
- Facilitated system administration for the Strategic Communications and Marketing Department's digital asset management system
- Collaborated with Chief Information Officer, Chief Communications Officer and key stakeholders to develop web strategy and issue resolutions for content consistency, better usability across organization's online properties resulting in an increase of web visits and engagement
- Developed and delivered structured CMS training for 200+ users, supporting platform governance, workflow adoption, and operational consistency
- Ideated thought leadership within the communications department, working closely with physicians, committee team members and various departments, including cardiology, neurosurgery, hematology/oncology and pastoral care
- Supervised how best to organize and present content, initiated best approaches, industry standards and recommendations, as well as SEO resulting in better ROI on ad campaigns that promoted divisions, departments, service lines, facilities, etc.

2003 – 2008

Media Relations Coordinator | University of Alabama at Birmingham | Birmingham, AL

- Managed and staffed projects, including digital content creation for the South Central Center for Public Health Preparedness (a consortium consisting of Tulane University, UAB and multiple public health departments in Mississippi, Alabama, Arkansas, Louisiana and UAB) for online instructional development for the master's programs and course curriculums
- Designed and produced 100 episodes of web content for "The Healthy Action Minute with Dr. Josh Klapow" on ABC 33/40 television
- Engaged as the media relations liaison between systems, users and agencies for the UAB School of Public Health

EARLY CAREER HIGHLIGHTS

2003 – 2025

Web Technology Consultant | Invictus Media LLC | Birmingham, AL

- Facilitate end-to-end consultation on web design and implementation for start-ups and small to medium businesses, including strategy development, planning and relationship management
- Conduct marketing analysis and strategy to identify opportunities for client growth

2000 – 2002

Video Editor | WVTM NBC News Channel 13 | Birmingham, AL

- Edited and assembled content to aid as a visual accompaniment for the presented news stories
- Archived and logged video files for reference purposes in a computer database
